

STAINED GLASS TREE OF LIFE REVEALED

Havenstreet Ceramicist and Stained Glass expert Kirstie and Paul Hayler, proposed a project to Havenstreet Community Association to make a stained glass 'Tree of Life' and a body of ceramic tiles for the Community Centre Garden.

Havenstreet Community Association applied for and were awarded a grant of £1,000.00. from CREATIVE ISLAND to carry out the project.

Over three weekends in June, local residents of Havenstreet and surrounding areas were invited to take part in the project.

The recent reveal of the stained glass 'Tree of Life' and the tiles 'Heart' at Havenstreet Community Centre is a fantastic addition to the Community Garden. The project proved to be an outstanding success, not only with the creation of the artwork, but also bringing people together and finding friendships.

Thank you to Paul and Kirstie Hayler, Island Creative and for everyone who took part in creating it, a real community effort.
